VETRINE SERIE

Kubica

La serie Kubica integra la naturale luminosità del cristallo ad un design moderno, creando un insieme armonioso tra il calore delle parti in legno, la trasparenza del vetro e l'eleganza degli elementi in alluminio.

The Kubica series integrates crystal natural brightness with its modern design, creating an harmonious combination between the warmth of the wooden parts, the transparency of the glass and the elegance of the aluminum elements.

CARATTERISTICHE

La serie Kubica è realizzata interamente in vetro float 6 mm temperato ed è caratterizzata da ante battenti con serratura integrata, piedini in alluminio e ripiani in vetro, entrambi regolabili in altezza.

Le vetrine possono essere completate con kit di illuminazione laterale a 5 faretti LED, disponibili in due versioni: MC5K* e KL5*. I kit di illuminazione possono essere adattati su richiesta per vetrine medie e basse.

Per aggiungere un ulteriore tocco di eleganza, il top delle vetrine alte può essere personalizzato con cornice in legno e vetro centrale temperato.

FEATURES

The Kubica series is made entirely of 6 mm tempered float glass and includes hinged doors with integrated lock, aluminum feet and glass shelves (both height-adjustable).

The display cases can be completed with a side lighting kit with 5 LED spotlights, available in two versions: MC5K and KL5*. The lighting kits can be adapted on request for medium-size and counter showcases.*

For an extra touch of elegance full-size showcases top can be customized with wooden frame and central tempered glass.
